STANDARD: Written policy, procedure, and practice allow properly trained Community Supervision Agency staff to restrain juveniles for the purpose of public safety, staff safety and/or safety of the juvenile. Staff shall use the least restrictive method to control the situation. Community supervision staff who perform this function, shall receive restraint training annually. Documentation is required to verify staff has received training.

DISCUSSION: Community Supervision Agencies that do not utilize restraints do not need a local policy for said Standard.

NOTE: The standards and procedures set forth herein are intended to establish operational guidelines for community supervision agencies and their employees/contractors and juveniles under supervision. They are not intended to establish state created liberty interests for community supervision agencies or their employees/contractors, or supervised juveniles, or an independent duty owed by the Juvenile Justice Authority to community supervision agencies, or their employees/contractors, supervised juveniles or third parties. This standard and procedure is not intended to establish or create new constitutional rights or to enlarge or expand upon existing constitutional rights or duties.
